## II. INVENTION

Inventions include new processes, products, apparatus, compositions of matter, living organisms, or improvements to existing technology in those categories.

**A. Invention title:** (The title should be broad and non-confidential, i.e. what you can do, not how to do it.)

**B. Please briefly describe the invention:** (If you have a manuscript, PowerPoint or other presentation, poster or abstract please attach it to this form.)

**C. Has the invention been disclosed publicly or offered for sale?** (Disclosure includes a poster or other public presentation, publication in a journal, thesis, or book, email dissemination, internet/website publication or display, and conversation outside of CU not protected by confidentiality.) **If so, when, where, and to whom?**

**D. Is there a planned date of disclosure, publication, display or sale?**

**E. What is the source of funds supporting this research (grant award numbers, we cannot use speedtype numbers or proposal numbers)**

**F. Is a third party involved in this research, such as through a sponsored research agreement, MTA, consulting or option agreement?**

**G. Is this research a collaboration with investigators at another institution or company?**
